

Community Rewards Terms

Review version 0.2.0-free-test-review.2 | 17 October 2026

Prepared by Publicity for Dan and qualified legal review. DRAFT ONLY. No effective date or approved customer URL. This proposed notice covers the inactive Rewards status of the free SpanishGenie test phase.

Rewards are inactive

The free test build does not enroll testers in an active Community Rewards program. No referral reward is earned or paid through this phase. Rewards tools, attribution, reports and payouts remain hidden or disabled. No purchase, recruitment or referral activity is required to download or evaluate the test build.

A required read and understand declaration for this notice acknowledges its inactive-program status. It does not activate Rewards, create a payout account, authorize marketing, or promise future eligibility or earnings. Downloading or installing alone records no legal acceptance.

Test expiry and retained rights

The Software License Terms describe the independent two-hour initial trial and fixed installation-day midnight cutoff. Rewards status cannot extend either limit or unlock an expired build. A newer approved build does not promise another trial.

This notice does not erase a valid historical purchase, paid license, declaration or reward record. Existing rights, if any, must be reviewed under their original applicable terms. No real reward balance or entitlement is established by synthetic test data.

Any future program

A later active program requires its own approved operator, eligibility, attribution, disclosures, tax and payout rules, provider support and effective terms before it begins. The separate USD 5 direct-referral planning decision remains a future commercial input, not an offer in this free phase. There is no current earnings or availability promise.

Do not collect or submit other people's contact details, student rosters or child information through this inactive program. Do not represent yourself as an agent of LanguageGenies or make product or earnings commitments on its behalf.

Contact and final review

Provisional contact: mindstride@gmail.com. Corporate Compliance coordinates FD1 and legal review; Publicity owns this text. The planned directly Dan-owned LanguageGenies Delaware C corporation is not formed. Verified operator, authority and public address remain open. Qualified review and Dan's final approval are required before this notice receives a customer version, URL, delivered-byte hash and prospective effective date. Mandatory rights remain unaffected.
